

For Immediate Release:

Sullair Expands Certified REMAN Program to Include 375cfm Portable Air Compressors

Sullair Showcases the 375 Series of Air Compressors at the ARA Rental Show This Week in New Orleans

New Orleans, LA, Feb. 23, 2015 – [Sullair](#), an industry leader in innovative compressed air solutions since 1965, today announced the launch of its Certified REMAN 375H cfm portable air compressor, at the [ARA Rental Show](#) in New Orleans. The REMAN 375H is the latest addition to Sullair's Certified REMAN program, which already includes the 900H AF; 900/1150XX HA and 1600H AF portable air compressors.

"The 375 REMAN allows us to enter a new customer segment and offer smaller compressed air solutions to our construction sector customers for use in demanding applications," said Rebecca O'Mara, Sullair's Senior Director of Business Development. "We are pleased to continue to expand our Certified REMAN program into new segments, like construction as well as the rental market, since our customers are realizing the benefits of obtaining a like-new compressor while minimizing downtime and reducing costs. Our ability to enter this segment is a direct result of the investment that our parent company Accudyne Industries has made in our business."

Sullair introduced the Certified REMAN program on a limited basis in 2013 and rolled out the program nationwide in 2014. Unlike a refurbishing program where selected parts are repaired or replaced once they become unusable, the Sullair Certified REMAN program provides a replacement for T2/T3 air compressors with a fully remanufactured Sullair air compressor that features the same factory warranty as a new unit. Once an exchange takes place, Sullair fully disassembles the used air compressor core and inspects, cleans and services all of its components – any replacement parts used in the process are genuine OEM. Extensive testing is conducted, to ensure that the remanufactured unit meets the original specifications.

The Certified REMAN program renews the one year standard warranty, two year standard air end warranty, and five year or 10,000 hour air end warranty when continuously serviced at the recommended intervals with Sullair AWF® compressor fluid and genuine Sullair filters.

Customers looking to avoid the effort associated with selling their old portables, or hoping to extend the life of their portable compressor rental fleets, should contact Sullair to learn more about the REMAN program.

This week at The ARA Rental Show in New Orleans, Sullair will be on hand to discuss the new REMAN 375H. To learn more, visit Sullair in booth #8047. Members of the media interested in meeting with Sullair can arrange a briefing by contacting Todd Keefe at tkeefe@crosswindpr.com.

**About Sullair:**

Since 1965, Sullair has been developing and manufacturing air compressors with proven reliability and wear-free durability. Sullair is globally recognized as a leading manufacturer of portable air compressors, contractors' air tools, stationary air compressors, compressed air treatment equipment and vacuum systems. Additionally, Sullair provides customers with a full line of aftermarket parts, fluids and services. Celebrating its 50th anniversary in 2015, Sullair has manufacturing capabilities in Michigan City, Indiana; Shenzhen and Suzhou, China; Mahindra World City, India; as well as a JV (IHI-Sullair) based in Suzhou. Telephone 219.879.5451. Fax 860.353.5779.

About Accudyne:

Accudyne Industries is the parent company of Sullair, and a global provider of precision-engineered, process-critical and technologically advanced flow control systems and industrial compressors that deliver consistently high performance and give confidence to the mission of its customers in the most important industries and harshest environments around the world. Today, Accudyne is powered by more than 3,000 employees at 18 manufacturing facilities, supporting a broad range of industries in more than 150 countries.
