

FOR IMMEDIATE RELEASE

**Sullair Introduces 3700V Series – Variable Speed Drive Compressors**

(Michigan City, IN, June 19, 2006) – Sullair Corporation has enhanced its 3700 Series of 40, 50, and 60 horsepower compressors with the Sullair Variable Speed Drive—the Sullair 3000V, 3700V, and 4500V.

The Variable Speed Drive (VSD) allows compressors to easily, efficiently, and cost-effectively adjust to fluctuating compressed air demand—either seasonal changes in demand, or from shift-to-shift. The Sullair 3700V compressor provides significant energy savings, lower overall costs, improved operating consistency, and relief from potential peak demand charges, thanks to its ability to adjust to changes in air demand.

Like the Sullair 3700, these VSD compressors feature a simplified WS microprocessor, low sound levels (as low as 68 dba), and a smaller footprint than similar compressors. Additionally, multiple engineering features have simplified routine maintenance—further reducing costs by centralizing all maintenance areas to one side of the machine.

Sullair has also released new literature that fully details all the features and options of this series of compressors, as well as the important benefits of the Variable Speed Drive.

For further information about Sullair's complete line of industrial compressed air system products or to request a copy of the new 3700V series literature, visit [www.sullair.com](http://www.sullair.com), or contact the company at (800) SULLAIR.

**ABOUT SULLAIR CORPORATION**

Sullair is one of the world's leading compressor manufacturers, and is the only air compressor manufacturer to concentrate exclusively on rotary screw technology. Sullair is a company of Hamilton Sundstrand, which is a division of the United Technologies Corporation. Sullair has been an industry leader and innovator since 1965. With subsidiaries in France, China, and Australia, Sullair is also a globally recognized manufacturer of compressed air contaminant removal equipment, vacuum systems, and contractors' air tools.
